WORK SAFE FEEL FREE

TO THE FORESTRY WORKERS AND ARBORISTS,

In the heart of nature is where you make your mark. You feel the wind, smell the fresh forest, and hear your chainsaw work. This is your ground. Where every move matters and confidence is key. Freedom drives you, yet safety has your back. SIP Protection develops protective outfits that move with you. Strong, comfortable and always reliable. Like the rhino in our logo: tough and free. We know your job and understand what comfort means to you. That's why our outfits let you move, and work freely - without compromising on comfort or quality.

SIP Protection

Why choose SIP Protection?

Discover what makes SIP Protection different. Our PPE is designed for professionals in forestry and arboriculture who demand reliable protection, day-long comfort, and durability that stands up to real working conditions. From purpose-built ranges to lightweight options and continuous innovation, these key strengths show how we help you work safely.

An outfit for every job

From forestry to arboriculture, SIP Protection offers purpose-built PPE for the way you work. Choose from a wide range of trousers and jackets: from reliable, no-nonsense basics to advanced models with extra pockets, premium stretch, and tougher fabrics. Whatever your task, you'll find the right fit, features, and protection.

Comfort in every move

Every cut, stitch, and fabric choice is made with comfort in mind. SIP Protection creates PPE that lets you work without distraction - no pulling, pinching, or restriction when you're on the move. Better comfort encourages consistent wear, and consistent wear supports safer working practices, day after day.

Built for the strongest workdays

When the job gets rough, your trousers shouldn't be the weak link. SIP Protection focuses on durability across the range, using hard-wearing materials made for real working conditions. For the most demanding environments, certain trousers are equipped with Tektor reinforcements to better resist brambles, thorns, and abrasion, built for long days and longer lifespans.

Range of lightweight and ventilated trousers

Warm weather, high effort, long hours - your trousers should help, not hinder. That's why SIP Protection includes lightweight options and ventilated designs within our range. Not every model is made this way, but when you want less weight or more breathability, you'll find trousers built to keep you comfortable while you work.

Innovative by nature

Innovation is in our DNA. As part of the Sioen Industries Group, known for "Protection through innovation", SIP Protection keeps pushing beyond traditional textiles. We develop smarter solutions that combine advanced technology with a clear purpose: better performance, better comfort, and a more sustainable approach. Every fibre is designed to do more.

Carefully tested in the field

Before a product becomes part of the range, it's put to work in the conditions it's made for. SIP Protection partners with arborists and forestry workers to test performance, comfort, and durability in the field. Our Team Rhino testing team, and SIPporters help us spot improvements early and keep refining every detail.

Brush cutting range

Purpose-built protection for brush cutting work.

KEY FEATURES

- Specifically developed for brush cutting
- Impact protection against flying debris
- Waterproof fabric at the front
- Easy to clean after use
- Practical protection

1RB8 - BRUSH CUTTING

Greenkeeper

Brushcutter trousers

KEY FEATURES

- Lightweight brushcutting trousers
- Protection against flying debris thanks to the fixed impact resistant padding
- Easy to clean
- Waterproof and breathable Siopor® Ultra front reinforcement

EU SIZE

- Regular (inside leg length: 80 cm): S - 3XL

COLOUR(S)

- (013) Anthracite/Hi-Vis orange

1RL8 - BRUSH CUTTING

Greentrimmer

Brushcutting leggings

KEY FEATURES

- Waterproof and breathable Siopor® Ultra front reinforcement
- Easy to wipe or rinse off dirt
- Fixed impact resistant foam
- Closing with an attached elasticated belt
- One size
- Extremely lightweight

EU SIZE

- one size

COLOUR(S)

- (835) Anthracite/Black

1RB4 - BRUSH CUTTING

Greenkeeper Vent

Brushcutter trousers ventilation

KEY FEATURES

- Waterproof and breathable Siopor® Ultra front reinforcement
- Large ventilation mesh on the back of the legs (100% polyester 140 g/m²)
- Removable high density impact-resistant foam on the tibia

EU SIZE

- Regular (inside leg length: 80 cm): S - 3XL

COLOUR(S)

- (013) Anthracite/Hi-Vis orange

1RB5 - BRUSH CUTTING

Greenkeeper Vent Flash

HV brushcutter trousers, EN ISO 20471 Class 2 except § 5.6

KEY FEATURES

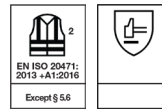

- Waterproof and breathable Siopor® Ultra front reinforcement
- Easy to wipe or rinse off dirt
- Large ventilation mesh on the back of the legs (100% polyester 140 g/m²)
- Removable high density impact-resistant foam on the tibia

Improved visibility overview

We offer a selection of visibility solutions for different working conditions. EN ISO 20471 sets the requirements for high-visibility clothing, while PPE meeting EN 17353 enhances wearer visibility in medium-risk situations.

Standards & certifications

Safety labels can look like a list of numbers - until you know what they stand for. On this page you'll find a clear overview of the standards and certifications that apply to SIP Protection gear, from chainsaw protection (trousers, jackets and gloves) and safety footwear, to high visibility, and rainwear.

EN ISO 11393

Protective clothing that provides protection against hand-held chainsaws

The norm also prescribes 4 classes that correspond to the chain speed with which the tests have been done:

EN ISO 11393 - 2

LEG PROTECTORS

EN ISO 11393 - 6

UPPER BODY PROTECTION

EN ISO 11393 - 4

GLOVES

Class 0 : 16 m/s
Class 1 : 20 m/s
Class 2 : 24 m/s
Class 3 : 28 m/s

EN 343

Protective clothing that provides protection against the effects of precipitation, such as rain, snowflakes, fog and ground humidity

EN 343

EN 388

Gloves that provide protection against physical and mechanical hazards due to abrasion, cuts, puncture and tearing

EN 388

EN ISO 17249

Boots that provide protection against hand-held chainsaws.

EN ISO 17249

CE STANDARDS

All of our SIP Protection products meet the CE stipulations and are CE marked.

EN ISO 20471

Protective clothing that complies with the demands for high visibility clothing

EN ISO 20471

EN 17353

Protective clothing with enhanced visibility for medium risk situations.
